

## DEDICATED TO PROFESSIONALISM

There is no doubt: Certification is the way to the top of the computing profession. And the prestigious CCP designation...Certified Computing Professional...from ICCP is recognized worldwide by employers and peers as validation of its holders' computing skills, knowledge and experience.

*The CCP is the standard which others covet.*

That's because ICCP, the Institute for Certification of Computing Professionals, is acknowledged throughout the information and technology sectors as the most important source of professional certification. Our CCP examination demands a high degree of professional competence from those who pass; consequently, the designation is powerful evidence of the high level of attainment of a true Certified Computing Professional.

It should be no surprise, therefore, that the ICCP is the standard in professional certification for 25 national and international professional computing societies — and for scores of individual employers.

Certification is the confidence-building proof that you have met specific requirements and possess high levels of knowledge and skills. And it is easier than ever to become certified with our innovative computer-based testing available at over 250 locations in North America. International test centers are available

In tough economic times, certification adds to your professional credibility and gives you an advantage in the competitive job market. The recognition that comes with the CCP designation makes ICCP the industry's leading professional certification organization.

## MEETING THE CHALLENGE

Over 50,000 computing professionals have already earned the recognition and rewards gained from passing ICCP exams. By attaining certification through the ICCP, you join a growing and distinctive group of knowledgeable and expert Computing professionals. Professionals certified through the ICCP come from every area of the business, government and educational communities. They come from all corners of the world and help advance professionalism in any country where they apply their special skills.

Through certification, you earn benefits which include:

- A practical means of assessing your skills and expertise
- Participation in the Professional Development Program, designed to maintain your competence in the ever-changing information technology field
- Help in your career advancement and compensation
- The satisfaction of measuring yourself against the highest industry standards
- Membership in a distinctive peer group made up of your fellow professionals
- The knowledge that you adhere to the Code of Ethics and Standard of Conduct

ICCP, founded in 1973, is dedicated to the establishment of the professional standards in the Information Processing industry. We promote this goal, along with 25 of our national and international professional computing societies, by offering the most widely recognized non vendor specific certification examinations in the profession.

# GIVE YOUR CAREER A BOOST!

**Institute**  
for the Certification of  
Computing Professionals

## PROFESSIONAL CERTIFICATION

ICCP, is an international not for profit 501c6 organization governed by a Board of Directors from constituent societies.

All ICCP certificate holders will be required to be in the ICCP Recertification Program

### EXAM FEES\* (Excludes ISA)

Core IT Skills Examination ..... \$250.00  
 Specialty Exam ..... \$250.00  
 Language Exam ..... \$145.00

*\*All fees paid in U.S. funds. ICCP Exams may be tax deductible. Check with your tax advisor. Examination fees are non-refundable. All examination fees are payable when the application is filed. If necessary, candidates may reschedule the examination. All rescheduling must be coordinated through the individual test site within 48 hours of scheduled examination date & time.*

### APPLICATION DEADLINES

Applications may be filed at any time throughout the year. Candidates have 90 days to sit for the examinations once application is accepted. Applications and test sites are available through ICCP headquarters.

## EXPERT PROFICIENCY CERTIFICATE

Obtaining an Expert Proficiency Certificate is suitable for those who are primarily interested in demonstrating competency in a specific area and for use in career planning. The Expert Proficiency Certificate is an effective method of determining competency in specific areas. Candidates may sit for one or more proficiencies that may also be credited toward an ICCP Certification.

## CERTIFIED COMPUTING PROFESSIONAL (CCP)<sup>®</sup>

The CCP examination program was developed to measure the knowledge and experience of senior-level computer software/system developers and analysts; to measure knowledge appropriate to the management of information processing; and test for knowledge and experience in the principles and practices of information systems development, information resource management and other related disciplines.

A person is awarded the Certified Computing Professional when they pass the Core IT Skills exam and any two Specialty Exams at 70% or better.

## ASSOCIATE COMPUTING PROFESSIONAL (ACP)<sup>®</sup>

The ACP examination was developed to test entry level skills. The program assists people new to the industry and recent graduates measure their abilities.

A person is awarded the Associate Computing Professional when they pass the Core IT Skills Exam plus any one (1) Language or Specialty Exam at 50%.

## CDMP CERTIFICATE

The CDMP Practitioner certification is awarded to professionals who scored above 50% on all three exams. These individuals can contribute as a team member on assigned tasks for they have a working knowledge of concepts, skills and techniques in a particular data specialization.

The CDMP Mastery certification is awarded to professionals who scored 70% or higher on all three exams. These individuals have the ability to lead and mentor a team of professionals as they have mastered the concepts, skills and practices of their data specialization. Exams may be retaken to improve your score and go from the Practitioner to the Mastery certificate level. You may receive credit up to one specialty exam for select vendor certifications.

## CBIP CERTIFICATE

The CBIP is awarded when a person passes the following two ICCP Examinations: CORE IT Skills Examination and Data Warehousing, plus one of the following: I.T. Management (Leadership and Management track), Business Information Systems (Business Analytics Track), Data Resource Management (Data Analysis & Design Track), Systems Development (Data Integration Track), Systems Security or Database Administration (Administration & Technology Track).

The CBIP Certificate is awarded in two levels: Mastery Level 70% or higher and Practitioner Level 50% or higher.

## INFORMATION SYSTEMS ANALYST

The ISA Certification is awarded to candidates passing the ISA assessment exam through their college.

The ISA Practitioner certification is awarded to graduates who scored above 50% on the ISA assessment exam.

The ISA Mastery certification is awarded to graduates who scored 70% or higher on the ISA assessment exam. Exams may be retaken to improve your score and go from the Practitioner to the Mastery certificate level. You may receive credit for the CCP Core exam when the ISA assessment exam is passed at the Mastery level.

## ICCP EXAMINATIONS

### Core IT Skills Examination

### LANGUAGE EXAMINATIONS

C

C++

COBOL

JAVA

### SPECIALTY EXAMINATIONS

#### Microcomputing and Networks

#### Business Information Systems

#### Data Resource Management

#### Database Administration

#### Data Management

#### Data Warehousing

#### Communications

#### I.T. Management

#### Systems Security

#### Systems Development

#### Software Engineering

#### Procedural Programming

#### Office Information Systems

#### Integrated Project Management

#### Object Oriented Analysis and Design

#### Operating Systems Programming

\*The Core IT Skills examination and each Specialty examination consists of 110 multiple choice questions with 1-1/2 hours allotted. Each Language examination consists of 66 multiple choice questions with 1 hour allotted
